OPTIONS

 **+ Self-Cleaning system**
Automatic double shower system for fast and intense cleaning of the squeezing area.

 **+ Automatic double action filter**
Transports automatically seeds and pulp into the waste bin.

 **+ Pulp-Out Filter & Stainless Steel Self-Tap**
Allows you to swipe seeds and pulp directly into the waste bin, by just sliding the Pulp-Out sweeper to the side.

 **+ ByeFly system**
The new system creates an air current in the squeezing area, keeping it free of mosquitoes and flies.

ACCESSORIES

 **+ Bottle holder**
Support for filling bottles without having to hold them.

 **+ Squeezing kit S**
45-60 mm juice squeezing kit to process small calibre fruits.
